

14TH ANNUAL CONFERENCE

Nov. 28 to Dec. 1
Harrison Hot Springs, B.C.

Forage Resilience in a Changing Landscape

Manage risk. Overcome challenges. Discover opportunities.

Academic Poster Showcase Invitation

Who: Academics, graduate and undergraduate students studying agriculture, science or social science, with an interest or potential interest in forage and grasslands.

The student or academic must have conducted the research or come up with the proposed concept as presented in the poster. Students are eligible to submit for 12 months after the month of graduation.

Haven't completed your research? That's ok; tell us about your research concept.

What: A poster showcase at the 14th annual Canadian Forage and Grassland Association (CFGAs) 2023 conference in Harrison Hot Springs, B.C. Nov. 28 to Dec. 1. The conference will include activities where academics and students can connect with government and academic scientists and extension personnel. Hear the latest forage research as well as the research and extension needs of the forage industry.

When: Nov. 28 to Dec. 1 during the CFGAs 14th Annual Conference.

* Students are eligible for a special rate to attend the conference. To receive the student code, email conference@canadianfga.ca.

Where: Harrison Hot Springs Resort, Harrison Hot Springs, British Columbia

Single and double rooms are available at a discounted rate for the nights of Nov. 28, 29 and 30.

You can book a room by calling the resort at 1-888-870-8889 or 1-604-796-2244 and telling them you are attending the CFGAs conference. You can also book online using the promo code you receive after you register.

You can find additional information about travelling to the resort, getting there and accommodations [here](#).

How: Contact the CFGAs at conference@canadianfga.ca by Nov. 15, 2023, to express interest in submitting a poster for the CFGAs's 14th Annual Conference.

More information: For more information on the showcase, contact Trudy Kelly Forsythe at conference@canadianfga.ca.

Poster details

The academic or student must have conducted the research presented in the poster.

Students must be enrolled in undergraduate or graduate programs and are eligible for the showcase for 12 months after the month of graduation.

Scientific posters

Scientific content

- Introduction and background with pertinent literature cited
- Title relevant to poster content
- Abstract information, well written, correlates with poster content and printed on poster
- Objectives or hypotheses clearly stated and concise
- Materials and methods (study design) clear, concise and appropriate to the problem
- Interpretation of results and analysis clear, concise and accurate
- Significance of results to field of study clearly discussed

Poster display

Organization

- Logical order; minimum redundancy
- Effective use of space; smooth transitions between sections

Visual aides

- Legible with large fonts, colour contrast, no conflicting backgrounds
- Text without grammatical errors; not excessively wordy
- Effective use of figures and/or tables; coordinated with and cited in text

Poster size

48”w x 36”h – landscape

Include the correct university logo.

The poster must not exceed the size limit. If your poster exceeds the size limits, we reserve the right to remove or fold your poster to accommodate space for others.

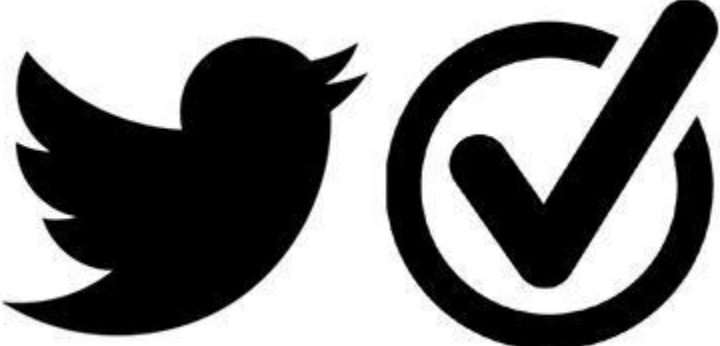

Set Up Times

Details about set up will follow.

Photography and Social Media

Be clear with attendees about whether you grant permission for your poster to be photographed or shared on social media. Download these images and insert them in the corner of your poster. (To download, right-click your chosen image below and select “Save Picture As...” or "Save Image As..." to save it to your computer.)

PHOTOGRAPHY OK	NO PHOTOGRAPHY
	

SOCIAL MEDIA OK	NO SOCIAL MEDIA
	

Good luck! We look forward to seeing your submissions.

The Canadian Forage and Grassland Association (CFGAs) Poster Showcase is an annual event that takes place in November each year. The event provides undergraduate students at Canadian universities the opportunity to present research they've conducted with their advisors over the past year on forages and grasslands. The breadth and variety of research is significant. This is purely an opportunity for students to showcase their work. There is no competition. Students entering the poster showcase receive a deeply discounted rate on the conference registration rate, including access to post conference online learning.
